Red Barn, Ashbury 26th September*

EST.  1909
**NEWBURY
SHOW**

The new Puma

available in 155, 165 or
185hp models

Case IH Puma 155-185 series tractors now boast a new design, an updated cab and operator experience, new front axle and cab suspension further improving productivity both in the field and on the road.

All models are available with ActiveDrive 8 or CVXDrive transmission.

**TRUST
THE RED**

The new Optum available in 360, 390 and 435hp models

In addition to its power, agility, and comfort, these new Optum series tractors also feature:

- Fully integrated central tyre inflation
- New front axle suspension
- Oil-cooled, in-board front brake
- Dual hydraulic pumps with increased draw-off capacity for increased system efficiency

THE BERKSHIRE TRAILER CENTRE

Supplying trailers from Britain's leading manufacturer

Renowned the world over for reliability,
durability and flexibility

SALES • SERVICE • GENUINE PARTS

Introducing **TOW-MAX** and **TOW-MAX PRO**

The Tow-Max range has been engineered to offer a lightweight flatbed trailer solution while delivering exceptional payloads – ideal for users with vehicles that have limited towing capability. With a wide selection of multi-purpose models, there's a Tow-Max practical for all professional, domestic or commercial use.

The HB506 & HB511 double horsebox models are both suitable for two horses. The HB506 up to 16.2hh. The HB511 is slightly longer and wider to accommodate horses to 17.2hh. Centre partitions and breeching bars are fitted as standard.

SPLITTER

- Air cond & heating
- Adjustable suspension
- Power steering
- Fully road legal
- Electric winch

Over 30 years of expertise in offroad innovation now selling in over 100 countries worldwide.

ISEKI

SXG MOWER RANGE

Whether its the 13.5hp, 19hp or 21hp engine the SXG216+, SXG324 or SXG327 has ample power with the shaft driven deck to cut and collect even in wet conditions. It is designed with the straightest path to the collector to avoid any clogging up. Collectors range from low to high tip to suit your needs.

TXGS24

Used in a huge range of applications where a small multi-use sub compact tractor is required for a range of tasks, it is a truly unique machine. With 3-point linkage, optional mower decks and front loader, the uses for this machine are limitless.
